WORK EXPERIENCES

2020 FoSE Summer Placement | Research Internship

Assisting in a sensory management system research project for children with Autism Spectrum Disorder (ASD). I am in mainly the data collection team, tasked to assist the primary researcher to collect primary data from experiments. I also am entrusted with helping to write the research paper for publication/conference.

2019 Desheng School Internship

A member of the Careers, Opportunities, and Guidance (COG) department in my high school. My main responsibility is to provide student academic and career consultations. I was also in charge of making a new 'International Students Policy' in the school. I also was assistant teaching for IB Biology course, mainly responsible for lab sessions and teaching support.

2018 IT Support and Teacher Internship | Trimulia Christian School

Internship as an IT Support/Teacher in my middle school. My job includes system maintenance, hardware repair, and attendance slip system creation. My system was adopted as the official system of the school.

HIGHLIGHTED PROJECTS AND ACHIEVEMENTS

2020- 2019 Vis-à-Vis Organisation

A member of the Vis-à-Vis (VAV) Organisation since 2019.

I am the incumbent vice-president of the organisation for the period of 2020-2021, previously an active member of the Information Technology (IT) Department. Along with the promotional video team, we have produced promotional media for the organisation. I am also active in the Online Language Learning Exchange (OLLE) Programme as one of their member. I am heavily involved in the construction of a new programme of the VAV Organisation, which is expected to start functioning by the new academic year (2020-2021).

2019- earlier Desheng Scholarship Award

I was awarded a scholarship for my university by Desheng School (International) for achieving remarkable academic results as well as contributing many things to the school, including co-founding the school's official photography crew, creation of the school's corporate video, named as an honorary member of the student council, etc.

Project BlackWings Disaster Rescue Drone Unit

An ambitious research and development project that aim to create a UAV for disaster response. Along with a friend, we Initiated the project due to concern of higher disasters rate. Our concept idea was practical and feasible however due to insufficient budget and field expertise, the project went on hiatus.

GoBicycle

A student-based cycling-enthusiasts group that advocate for green transportation. One of our trip lasted for 200 KM to show that bicycles are capable of going the same distance as motor vehicles.

Science, Technology, Engineering, and Mathematics (STEM) Club CCA

STEM club deals with innovative investigation and research projects that aim to solve daily life problems through the scientific method. I was elected club president for the year 2018-2019.

Multiple short film projects

Having been active for several years, I have produced several short film and videos for multiple purposes, including School Corporate Video, Student Council presidential campaign, promotion, and education. My works have been commended in multiple occasions.
